Financial support from our donors has a lasting impact on the holistic care and comfort provided to mothers, infants, and children at Ascension Saint Thomas Rutherford Hospital. Here are just a few of the many ways philanthropic support makes a difference for our patients and caregivers:

- **AngelEye Cameras:** Available for babies in the Lee and Susan Moss Family Newborn Intensive Care Unit (NICU), these cameras allow parents, grandparents, and other family members to securely view a live picture of their baby when they can't be at their side.
- **Enhanced Care and Comfort:** Donations help provide cutting-edge medical equipment, comfortable patient environments, and support services that promote the well-being of our patients and families.
- **Education and Training:** Your contributions support education and training for our maternal services associates, ensuring that our team has the skills and knowledge necessary to provide the highest level of care to mothers, infants, and children.

And much more!

Your generosity ensures that Ascension Saint Thomas Rutherford Hospital continues to provide exceptional care for those who need it most. Thank you for making a difference in the lives of our patients and their families!
